Invitation to the 27. International Seth-Conference

October 31. to November 02. 2008
Hohenwart-Forum - Pforzheim, Germany

Let yourself be inspired by a multitude of offerings in
attractive accomodations surrounded by a serene and
beautiful landscape in the Black Forest...
As always, we are looking forward to meeting new people
and exploring alternative world-views in the context of the
Seth-Literature - while having fun!

„What do the inner levels of the self feel about their own reality?
How do they view our exteriorized life? Since our private
experience comes from these inner Aspects of the self,
at least they deserver a hearing. Our intellectuality
based theories stress the parts of the personality with which
we are most familiar and ignore deeper experience,
which they can not reach alone...“
Jane Roberts: The Seth Material, Preface

Seth Conference organized by

EVENTS

SATURDAY EVENING HIGHLIGHT WITH RICHARD KENDALL

Richard Kendall was a former member of Jane Roberts's ESP classes for a number of years. On Saturday evening his presentation will include the following:

- Excerpts from original tapes made during class of Jane speaking for Seth and singing Sumari.
- An original essay written specifically for the conference entitled "Believing In One's Worth."
- Reading from a work in progress entitled The Road to Elmira, a retrospective of his participation in Jane Roberts's classes.

Lastly, he will interact with the audience to answer questions about Jane and Rob.

FRIDAY EVENING

after an official greeting in our large, round "Plenum", we will introduce ourselves in a playful and creative manner, hopefully getting to know each other just a little bit, so as to make it easier to participate.

As usual there will be a screening of the Seth-Video with Jane Roberts, and plenty of discussions at the inhouse cafe.

SATURDAY

We are offering several workshops during the day. A few of these are presented below - some will be presented at the conference. At the beginning of each sequence, our workshop leaders will give a short presentation of their course and you may choose which one you would like to participate in.

Available workshops as of now:

WORKSHOP WITH RITCHIE DVORAK

Based on some exercises by Kurt Leland we will try to transform our inner images into outer images using canvas, colors and sound.

A kind of "painting by numbers" of the soul ...

There will be more offers at the conference, and you may participate :

- bring text excerpts you want to share
- present a movie you want to show
- choose a topic from the Seth Books you want to discuss

SUNDAY MORNING HIGHLIGHT

with Richard Kendall and Emmy van Swaaij

Emmy van Swaaij was born in Utrecht in the Netherlands. She graduated as a Drama Therapist in the summer of 2006, and is specialized in working with deaf people, thus combining her sign language skills with her drama therapy work. She loves to do improvisational theatre and to create music on her cello. In 1999 she came in contact with the work of Jane Roberts and started to regularly record her dreams. Not unlike an archaeologist studies the different layers of the earth she likes to study the different layers of the dream state.

On Sunday Emmy and Richard will conduct an interactive session with the audience consisting of the following:

- Guided meditation
- Improvisations In Consciousness
- Testing our Psychic Abilities
- Open forum for audience to share their experiences
